

SHAHV 2017 Spring Conference-2

Managing Dysphagia in Adults: It's All About the Disease

Presented by: James Coyle, Ph. D., CCC-SLP; BCS-S

Date: Saturday May 6, 2017

Time: 8:30 am - 4:00 pm

Where: Hampton Inn

South Putt Corners Road

New Paltz, NY

Course Description:

The demand for experienced, skilled and decisive practitioners of Medical Speech Language Pathology has grown exponentially in the past decade. This growth has been fueled by the need to control hospital acquired infections and reduce life-shortening adverse events associated with dysphagia. Unfortunately graduate academic and clinical education rarely sets time aside to prepare clinicians to fully understand the non-speech functions of the respiratory system or the physiological underpinnings of pulmonary diseases in adults. Instead it continues to prepare us to manage speech and swallowing impairments without instilling a solid background regarding how human pulmonary function is altered by disease. Another area of knowledge the medical SLP must gain during practice, relates to the digestive portion of the aerodigestive tract. Dysphagia caused by esophageal motility or other conditions can mask or mimic oropharyngeal dysphagia and lead the diagnostician in the wrong direction. This course will explore the respiratory system's functions, anatomy and physiology, how pulmonary diseases affect breathing and swallowing, the course and progression of common pulmonary diseases in adults, how to identify risk factors for dysphagia-related adverse outcomes, review esophageal structure and function, common esophageal structural and physiologic disorders and their relationship dysphagia symptomatology, and outline methods of assessment of esophageal disorders.

Presenter:

Dr. Coyle is an Associate Professor of Communication Science and Disorders at the University of Pittsburgh where he co-developed the department's clinical doctorate program in Medical Speech Language Pathology. His clinical and research interests are in assessment and management of complex oropharyngeal dysphagia in adults, biomechanical analysis of swallowing physiology, medical sequelae caused by dysphagia, and educating students and clinicians in evidence based medical SLP practice. He lectures nationally and internationally on all of these subjects. He is a Board Certified Specialist in Swallowing Disorders, and a former member of the American Board of Swallowing and Swallowing Disorders and an ASHA Fellow. He has an active clinical practice in University Hospitals and Clinics, where he trains students, and is currently involved in several Dysphagia research projects.

Course Objectives and Learner Outcomes

At the end of the workshop, participants will be able to:

1. Describe the ventilatory and respiratory roles of the respiratory system.
2. Describe respiratory and deglutitive interactions in the aerodigestive tract
3. Differentiate between the various forms of pneumonia and other common respiratory conditions
4. Identify risk factors for pneumonia
5. Understand the meaning of various diagnostic reports in the medical record and utilize that information more effectively in planning for patient care.
6. Identify common esophageal pathologies
7. Understand common instrumental tests used to assess esophageal structure and function

Workshop Agenda

8:00 - 8:25	Registration/sign in/Continental Breakfast
8:30 - 8:45	Introduction / Diagnostic Considerations Introduction of the problem, its sources and its outcomes
8:45 - 9:15	Respiratory and ventilatory functions of the upper aerodigestive tract
9:15 – 10:15	Coordination of breathing & swallowing, lung response to aspiration, pneumonia
10:15 - 10:30	BREAK
10:30 -11:30	Aspiration pneumonia and common pulmonary diseases in adults
11:30 – 12:00	Decision-making: aging and other risk factors for pneumonia
12:00 – 1:00	LUNCH
1:00-1:30	Decision making: Understanding chest x-ray and other reports
1:30-2:30	The digestive system, esophageal function and structure
2:30-2:45	BREAK
2:45 – 3:30	Esophageal pathology and assessment
3:30-4:00	Discussion, Questions and Answers (much of this will take place during the course.)

Disclosure

Financial: James Coyle has a financial relationship with the University of Pittsburgh as follows: James Coyle receives salary compensation University of Pittsburgh. He has an active clinical practice in University Hospitals and Clinics.

Nonfinancial: James Coyle has no non-financial disclosures.

This course is offered for 0.6 ASHA CEUs (Intermediate level, Professional Area)

Cancellation Policy:

SHAHV will make every reasonable attempt to make timely notifications of canceled or postponed events. If an event is postponed and the individual cannot attend the make-up date, a refund will be given. If SHAHV cancels an event, the individuals will receive a full refund. If the participant cancels their registration within 5 business days of the event, a partial refund will be given. No refunds will be awarded after the scheduled event for those individuals who did not attend and who provided no prior notification. Refunds requested will be processed within 10 business days of the written request.

Registration form on next page

Registration Fee:

Includes: Registration, Electronic Handout, Continental Breakfast (**no lunch**)

\$95 SHAHV Members

\$130 Non-Members

\$30 Students (with current ID)

Early Bird Registration *Postmarked by April 15, 2017*****

\$75 SHAHV Members

\$110 Non-Members

\$10 Students (with current ID)

Make checks payable to **SHAHV**

Mail Registration and CHECK Payment to: **OR**

Pat DeCicco c/o SHAHV
5 Hampton Court
Wallkill, NY 12589

Pay by credit card via PayPal
at: www.SHAHV.org

A \$1 processing fee for using PayPal is
automatically charged to your account.

REGISTRATION FORM FOR: MANAGING DYSPHAGIA IN ADULTS
