before 4/30!**

COURSE DESCRIPTION

The need for effective speech therapy practices for bilingual and multilingual learners continues to grow. This presentation aims to provide professionals in the field of speech-language pathology with a basic overview of relevant background information and a better understanding of the necessary components for appropriate speech-language evaluations for bilingual learners. In addition, attendees will learn of common treatment areas and helpful activity examples to better support their clients. Research based information, video demonstrations, clinical experience, and helpful tips and strategies will be used to encourage improved and effective practices to provide appropriate speech therapy supports for bilingual students.

COURSE OBJECTIVES

Participants will be able to:

1. Describe the necessary components of a bilingual speech evaluation
2. Identify appropriate speech therapy session objectives and activities for bilingual learners
3. Utilize evidence-based information to provide appropriate recommendations for effective assessment and treatment practices to support bilingual learners
